CAREER OBJECTIVE

An innovative software developer skilled in harnessing diverse data structures, renowned for exemplary organizational prowess, and driven by an unwavering commitment to excellence.

EDUCATION

JIMS Engineering Management Technical Campus, GGSIPU <i>Bachelor of Technology in Computer Science, 8.4 CGPA</i>	NEW DELHI, IN Nov. 2022 – July 2026
DAV Pubic School <i>Higher Secondary (12th Grade PCM)</i> <i>Secondary School (10th Grade)</i>	80% 87%

EXPERIENCE & CERTIFICATION

Software Developer Intern Viral Nest • Contributed to core product development by building scalable, production-ready full-stack web applications and collaborating with the development team. • Built and deployed Optical Manager , a multi-tenant SaaS platform now used by 5+ optical stores across Delhi NCR, covering inventory, billing, clinical records, and store operations. • Delivered full-stack e-commerce and client projects end-to-end , including product catalogs, payment and logistics integrations, backend APIs, and responsive user interfaces.	Feb 2026 – Aug 2026
Web Developer Intern Infrasiy Python, Flask, Ollama, Git, Postman • Implemented an “Ask AI” RAG system using Flask and Ollama for querying product documentation • Integrated multiple LLM models to summarize and answer questions from technical blogs and docs. • The feature was productized and adopted in GTM playbooks as a differentiator for client acquisition. • Implemented semantic search using vector embeddings to improve response relevance. • Documented system design and usage, simplifying LLM and retrieval concepts for developers.	Dec 2025 – Jan 2026
Data Analysis Trainee — Deloitte Python, SQL, Tableau • Analysed large datasets to extract business insights and support data-driven decisions. • Built interactive Tableau dashboards to visualize key performance metrics. • Used Python and SQL for data cleaning, transformation, and reporting.	Dec 2023 – Jan 2024

PROJECTS

Optical Manager <i>Next.js 16, TypeScript, Supabase, PostgreSQL, Drizzle ORM, Tailwind CSS</i> • Build an production-grade multi-tenant Retail SaaS platform , currently used by 5+ optical stores across Delhi NCR, supporting multi-branch inventory, OD/OS ophthalmic records, and GST-compliant billing and invoicing workflows. • Designed a relational PostgreSQL schema spanning 15+ entities with Drizzle ORM, implementing transactional workflows for inventory updates, lab orders, sales returns, and credit notes. • Optimized application performance and data access using Next.js Server Components , server-side authentication validation, and reusable component architecture for a responsive user experience.	Live Github
AI-Powered Online Learning Platform (SaaS) <i>Next.js, React, Gemini AI, PostgreSQL, Drizzle ORM, Clerk</i> • Developed a full-stack AI SaaS platform that auto-generates structured, multi-chapter video courses using Google Gemini and YouTube API. • Reduced course-generation latency by 8× by implementing a concurrent asynchronous processing pipeline for parallel AI and API operations. • Built secure, authenticated database operations using Drizzle ORM and PostgreSQL, with a custom JSON-schema normalization engine for structured course data.	Live Github

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript,
Frontend: React, Next.js, Vite, Tailwind CSS, GSAP, Material-UI
Backend & Tools: Node.js, Express.js, REST APIs, Clerk Auth, Drizzle ORM, Supabase
Databases: MySql, PostgreSQL (Neon), MongoDB
Developer Tools: Git, Postman, Render, GCP, AWS
Data Structures & Algorithms: Solved 300+ Problems (Leetcode)
CS Fundamentals: Low-Level Design (LLD), Object-Oriented Programming (OOP), Operating Systems (OS), Computer Networks (CN)
Soft Skills: Communication, Teamwork, Problem-Solving, Adaptability, Time Management

ACHIEVEMENTS & CERTIFICATIONS

- Secured 1st Position in Software Engineering, awarded by JIMS College (2024) for outstanding academic performance
- Achieved 3rd Rank in the College Frontend Hackathon (2024) for building an innovative and responsive web interface
